Congresswoman Maxine Waters
2221 Rayburn HOB
Washington, DC, 20515

Dear Congresswoman Maxine Waters:

As your constituent and the President/CEO of Emptech, one of my key executive responsibilities is the market interest surrounding Verifyfast.com, a platform we own, that offers safe and secure verification services to people nationwide. Today, I am reaching out to you on behalf of millions of Americans and companies that we serve. I am writing to urge you to follow through with your support and good work you have been doing for national credit reporting reform legislation that provides companies with a clear path to greater protection of personal and sensitive information on behalf of consumers.

I am writing to you not only for my own personal reasons, but also as a voice for all the clients and consumers that we help serve and protect. As part of this industry, I feel it is my responsibility to help protect vulnerable members of our communities across America; therefore, it is imperative that I implore Congress to work diligently and swiftly to resolve this issue to avoid another catastrophic Equifax-level security breach.

Emptech services great companies all over the U.S. and the message from our clients is united on this subject: "Fix the broken credit reporting system! "

If you would like to speak to me in greater detail about this issue at hand, please feel free to contact me any time at 800-518-3874 or email me at j.aleixo@emptech.com. I would welcome the conversation!

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey Aleixo".

Jeffrey Aleixo
Emptech
President/CEO
